Solar Programs

Applications are now open for the solar program (2017 – 2021)

Solar Saver Program has been developed to help people install solar panels for electricity. Council pays the upfront cost. You (the ratepayer) pay it off over 10 years through quarterly rate payments. Details, regarding the size of solar systems and eligibility criteria, will be provided to applicants via updates. **IMPORTANT:** Installation will take place between July and December, 2018.

Solar Bulk Buy Program offers households, organisations and businesses an opportunity to purchase a quality solar panel system from a trusted supplier at a low price. You pay upfront for the solar system, and choose from a range of sizes (2 kW to 10kW or greater).

Council wants to double solar (PV)* panels in Darebin over the next four years.

Panels will have a 20 year warranty. Other components and installation will have 10 year warranties.

Council cannot guarantee you will be accepted into the program of your choice.

A no-obligation quote will be offered if solar is a viable option for you.

Applicants will receive further details and updates via email or post.

If you would like an interpreter to assist you please phone 8470 8470.
