Principles applying to Infrastructure Managers and Works Managers:

- 1) An Infrastructure Manager or a Works Manager must have regard to the principles specified in this clause in the provision of non-road infrastructure on roads
- 2) The primary purpose of a road is use by members of the public and authorised users must be managed as far as is reasonable practicable in such a way as to minimise and adverse impacts on the primary purpose
- 3) Without limiting the generality of sub-clause (2), authorised users must be managed so as to :-
 - a. minimise damage to road and road infrastructure
 - b. minimise risks to the safety and property of road users and the public generally
 - c. minimise disruption to road users
 - d. facilitate the design and installation of infrastructure which minimises any risks to the safety of road users
 - e. ensure that the road and any other infrastructure is reinstated as nearly as practicable to the condition existing before the works necessary for the provision of the non-road infrastructure were conducted
 - f. protect and preserve existing significant roadside vegetation and sites of biological significance within the road reserve
