

Help us transform your streets into

STREETS FOR PEOPLE

As our city continues to grow, the role and function of our local streets is changing.

The City of Darebin wants to work with our community to help define what our streets will look and feel like in the future.

The City of Darebin is launching another exciting project to transform local streets into people friendly places.

Our Council Plan 2017 - 2021 sets the overarching vision for **“a greener, bolder, more connected city.”**

The **Streets for People** project is an opportunity to:

- kick-start the transformation of the local street network
- prioritise sustainable transport modes
- increase the functionality and safety of our streets

With your help we can improve our streets by making them more people-friendly and enjoyable places to live. Its an opportunity to set the bar for neighbourhood streetscape innovation in Australia.

the place to live

Let's create your
dream street

HOW DO I GET INVOLVED?

STAGE 1

Engaging with you, the community, throughout the project process to understand what the community wants, how you use the area and how access can not only be improved but become more sustainable, inviting and fun!

STAGE 2

Identify neighbourhood and local resident community aspirations and constraints for streetscape improvements.

STAGE 3

Identify community champions that are interested in working closely with Council as the project progresses to develop and test ideas and implementation options.

You can also nominate yourself and your street to be part of a group that will work closely with Council and the consultant team to develop ideas.

Streets for People in Preston & Reservoir has now started. We want to hear from you between now and the **17th March 2019**.

With your help over the coming months, we will start preparing ideas and designs that will transform the corridors, with a view to start delivering streetscape improvements this year.

Let's go on a journey together...

You can participate in a number of ways:

DROP-IN SESSIONS

Drop-in sessions will be held for each corridor:

Preston: 16th March between 10am-12pm at Preston Library.

Reservoir: 16th March between 2pm-4pm at Reservoir Library Forecourt.

ONLINE SURVEY

Fill in the online survey to tell us what you think of the study areas. What is working or not, and what you wish for the future of your streets:
