Darebin City Council is committed to reversing this trend of declining activity in Darebin through the development of five Leisure Strategy Priorities. These priorities will assist Council to work towards a goal of reaching the state average in Leisure participation by 2020.

Council’s Commitment

Examples of our key success measures:

**Priority 1** To achieve an awareness of the leisure opportunities provided by Darebin City Council by 60% of the participants in the annual/quarterly Council surveys.

**Priority 2** To achieve an increase in the number of women and people from multicultural communities participating in sport in the City of Darebin

**Priority 3** We will work towards developing a minimum of three new lighting projects for sports grounds to bring the facilities up to the Australian standard in each of the first four years of the strategy.

**Priority 4** We will work towards achieving the national average participation rate in recreation activities through the term of the strategy. In year one our target will be a participation rate of 83%.

**Priority 5** We will work towards achieving a 100% compliance with Wastewise at all Council operated and contracted recreation venues and Wastewise principles being included in 100% of new and renewed sporting club licences and recreation contracts.
Darebin City Council is pleased to welcome you to the City of Darebin Leisure Strategy 2010-2020.

Sport and recreational activities are a vital part of community life, providing outlets for social, physical and mental health and wellbeing. Council has worked closely with our community and stakeholders to develop a Leisure Strategy which provides a vision and strategic direction for Darebin’s leisure future.

Creating time for leisure is important for all ages, whether walking the dog, participating in sport, taking part in a library program or being a part of a local yoga group. Taking part in a physical activity or having the opportunity to interact with others has many long-term benefits. Having a healthy and vibrant community in all areas of life is a priority for Council. The Leisure Strategy is our plan to assist the community in living a healthy and happy life through participation in sport and recreation.

Our research tells us that Darebin has an aging population, changing demographics and other changes consistent with our increasingly busy lifestyles. We know that reduced activity and lack of opportunity for participation in activities can lead to social isolation and increased levels of obesity among the community.

The results of our research, undertaken during the development of the strategy, tells Council that we can expect to see a decline in leisure participation rates from 76% to 56% by 2020. Darebin City Council is committed to reversing this trend of declining activity in Darebin through the development of five Leisure Strategy Priorities. These priorities will assist Council to work towards a goal of reaching the state average in Leisure participation by 2020.

We plan to continue the leisure dialogue with the community, by working with individuals, clubs, and sporting bodies. These discussions will enable us to best plan for programs, services and inclusive, environmentally sustainable open spaces and facilities that best meet the community’s needs.

The City of Darebin Leisure Strategy 2010-2020 has been shaped by the many people involved in the consultation process. I would like to thank community members, groups, organisations, Sport and Recreation Victoria and Council staff, who have contributed to its development.

The City of Darebin is proud of this plan and I look forward to being part of the continued celebration of our community partnerships through publications, awards, events and celebrations where all of our vibrant community can enjoy participating in leisure.

Mayor, Cr. Vince Fontana

The *Leisure Strategy 2010 – 2020* is a ten-year plan which provides a broad framework and vision for identifying and addressing the key leisure needs of the Darebin community. Council has developed this document through meeting with the community and understanding their priorities for sport and recreation. The Leisure Strategy will guide Council in its decision making and planning of leisure services and facilities for the next ten years and should be read in conjunction with the Leisure Strategy Four Year Action Plan.

### Our Vision

To create an inclusive environment where our diverse community can experience physical and mental wellbeing by participating in sustainable sport and recreation activities.

### Our Strategy

The *Council Plan 2009 - 2013* and the strategies and principles within it, have formed the framework for the Leisure Strategy. Based on the Council Plan the following five priority areas have been identified:

- **Priority 1** Leadership and Engagement
- **Priority 2** Community Wellbeing
- **Priority 3** Liveability and Regeneration
- **Priority 4** Celebration and Participation
- **Priority 5** Environmental Sustainability

### Key Findings

#### Community
- The community is highly diverse with particular needs for low cost, casual access to sport and recreation.
- The number of older residents is increasing. Supporting people to stay active and connected within their community is a priority.

#### Participation
- Resident’s current participation in sport and recreation activities is lower (76%) than the national and state average (83%).
- Participation in casual activities such as walking, swimming, gym/weight training and bike riding were identified as the most popular current and future activities. Infrastructure to support participation in these activities should be prioritised.

#### Facilities
- Darebin has extensive outdoor sporting facilities which support participation in sporting activities and can provide opportunities to cater for new and emerging sports.
- As an established municipality some facilities no longer meet current community expectations and will require investment over time to ensure they address both current and future community needs and interests.
What is leisure?
Leisure is an all-encompassing definition that combines the elements of formal sports and casual recreation.

Why is leisure important?
Leisure provides many benefits to our community. These benefits help strengthen families, build healthy communities and improve the quality of life for residents. Australians are becoming increasingly aware of the need to participate in and maintain a healthy lifestyle.

Some of the key benefits provided by leisure and recreation are:
- Participation in leisure improves physical and mental health and assists with disease prevention and management
- Leisure facilitates participation and interaction between a diverse range of community members, age groups, individuals and families and facilitates social interaction e.g. community, sporting and service groups
- Recreation and sport builds social skills and stimulates participation in community life
- Recreation is often the catalyst that builds strong self sufficient communities
- Leisure helps to connect people and places and develop and grow community pride
- Outdoor recreation is one of the best approaches to environmental education – a key to long term sustainability
- Trails and pathway systems save energy and protect air quality by encouraging non-motorised transportation
- Leisure helps deliver community and individual benefits through economic stimulation, increased standards of living, heightened sense of community consciousness, and a positive impact on people’s health and lifestyle
Darebin’s places and spaces
- Over 120 sporting clubs
- Over 120 recreation clubs/organisations

Darebin’s people and leisure profile

Demographics

- Darebin is culturally diverse with residents coming from over 120 different countries. This is highly significant as “Ethnic minorities and people born in non-English speaking countries have been identified as more likely to have lower participation rates in sport and physical activity.”
- A significant proportion of the population have comparatively low disposable incomes with 65% of households having access to less than $1,000 weekly income, thus providing less opportunity to spend on leisure.
- There is an overall trend to an increase in population and this is expected to continue. In 2026 it is projected that there will be 20,836 more people living within the municipality than in 2006.

Participation

- Darebin has a slightly lower participation rate in recreation activities (76%), when compared to the State and National averages of 83%.
- Darebin residents are expecting to reduce their participation in the future, with the average future participation rate at 56%. This is of concern and strategies will need to be put in place to address the reported constraints to participation i.e. lack of time, information, transport and affordability.
- Participation in casual activities such as walking, swimming, gym/weight training and bike riding were identified as the most popular current and future priority activities.
- Ensuring equitable access and resources for females was identified as a key future priority.

What does this mean?

With a high number of Darebin residents born overseas there is likely to be potential barriers to participation in sport and recreation based on cultural differences, language, income and access to transport. Migrants also have a cultural preference for spending leisure time with family rather than in a public setting, and as such non participation in sport and physical activity is part of a broader issue.

Migrant sporting preferences are unlikely to reflect traditional Australian sporting preferences, and migrants are more likely to be interested in sports such as soccer, badminton and table tennis which have stronger participation rates in Asia for example.

With many residents on limited incomes, the challenge for Council is to ensure a broad range of low cost opportunities are available to support people’s leisure participation. This includes access to activities that can be undertaken in a casual manner such as swimming and walking.

Increasing numbers of older people means a greater emphasis needs to be placed on physical accessibility of facilities and opportunities that support older people to remain active and connected to their community.

What does this mean?

Information about recreation and leisure opportunities needs to be available in a range of mediums and on a regular basis to ensure residents are informed about available opportunities.

Effective communication is required between Council, sporting clubs and community groups to support each other in meeting the community leisure and recreation needs.

The quality of outdoor sporting reserves and support infrastructure varies significantly across the municipality. Many sports grounds within Darebin have inadequate lighting to support winter sports and many pavilions do not meet current standards in facility provision. The quality of facilities is a key factor in the success and sustainability of sporting clubs and the renewal and upgrading of facilities is required to ensure the community has ongoing access to sporting opportunities.

The physical accessibility of facilities is highly important in providing opportunities to older people and people with disabilities.

Information and communication

- Increased information about opportunities and activities was identified as a key future priority. Strategies that identify a range of methods for information dissemination are required.
- Increased communication between recreation clubs/organisations and Council was identified as key future priority.

Facilities

- Ensuring existing community facilities meet current expectations was identified as a future priority in the resident’s survey. Survey respondents indicated that the upgrade and improvement of existing sporting and recreation facilities should be the first priority of Council.

Sports pathways

Council’s role is to encourage and facilitate a range of physical activity and social experiences that improve health and wellbeing within the local community. Sports development targets participation at four different levels of sports activity:

**Foundation**: the development of entry level sports and movement programs i.e. Auskick

**Participation**: the opportunity to participate in any activity for reasons of enjoyment, fitness, social contact etc

**Performance**: the opportunity for those already participating in an activity to improve their performance

**Excellence**: the opportunity for those with the ability and desire to achieve excellence i.e. State, National and/or elite sports
Sport and recreational trends

The following provides a summary of current sport, recreation and leisure trends that may impact upon the development and future recreation provision in general as well as in Darebin.

- A gradual aging of the population
- Flexibility in the times when people recreate
- Increased variety in sport and recreation options
- Changing employment structures, trading and work hours
- Different people want different activities
- Provision of high standards and quality of facilities and services
- Desire for activities to be affordable
- Recognition of strong links between physical activity and health
- Expectations of equity and access. Today’s society expects people with special needs to be catered for in public facilities

The top ten activities Darebin residents participate in are:
- Walking
- Swimming
- Gym/weight training
- Bike riding
- Library/reading
- Jogging/running
- Soccer
- Australian Rules Football
- Tennis
- Cricket
Our Priorities 2010–2020
Our Leisure Goal

Providing leisure opportunities involves speaking with our community – with residents, recreation and sporting bodies, volunteers and clubs, State and Federal Governments. Our goal is to actively work with all members of Darebin’s diverse community – listening, inviting participation and responding to issues of concern.

Priority 1
Leadership and Engagement

Offrire opportunità di svago per il tempo libero significa comunicare con la nostra comunità – con i residenti, gli enti ricreativi e sportivi – i volontari e i club, i governi statali e federali. Il nostro obiettivo è di collaborare attivamente con tutti i membri delle varie comunità di Darebin – ascoltare, invitare a partecipare e rispondere alle questioni che più preoccupano i residenti.

Одна
Лидерство и Вовлечение

Наша цель – активно работать со всеми членами разнообразной и разноязычной группы жителей Дарebin – слушать, приглашать к участию и отвечать на их запросы.

Пружање рекреација и забава укључува разговори со заедницата – со жителите, рекреативните и спортските тела, доброволци и клубови, државата и сојузната влада. Нашата цел e активно да работиме со сите членови на разноликата заедница во Даредин – да слушаме, да придружиме учество и да се одговориме на нивните загрижени прашања.

Kutoa nafasi za mapumziko uhusisha kuuonge na jamii yetu – na wakazi, vyombo vya burudani na michezo, wanaojitelea na vilabu, Jimbo na Serikali Kuu. Lengo leti nu kufanya kazi kwa bidi na wanachama wote wa jamii anuwai ya Darebin – kusikiliiza, kuuliza uhusisha na kujibu masuala yenye hoja.

We will involve the community in our decision making, through consultation, public participation, community engagement and representation.

We will undertake frequent and effective communication with the Darebin community using language and methods that are accessible and relevant to their needs.

We will build on our close partnerships with community organisations, community agencies, other levels of government and the private sector to improve outcomes for the Darebin community.

**Directions**

1. Develop, enhance and expand a range of methods to communicate with Darebin’s diverse community and actively promote the leisure opportunities available within Darebin.

2. Involve the community in the development of new and enhanced leisure programs, facilities and services.

3. Develop partnerships with community groups, organisations, other levels of government and the private sector to increase, promote and provide leisure opportunities.

An example of a key success measure is:

*To achieve an awareness of the leisure opportunities provided by Darebin City Council by 60% of the participants in the annual/quarterly Council surveys.*
Our Leisure Goal

An example of a key success measure is:

To achieve an increase in the number of women and people from multicultural communities participating in sport in the City of Darebin

**Directions**

1. Ensure future programs and services are consistent with the priorities and outcomes identified in Council’s Community Health and Wellbeing Plan.

2. Resource and support the Access for All Abilities leisure programs and services.

3. Support social sport programs and increase casual sport opportunities to enhance health, wellbeing and social inclusion.

4. Facilitate and partner with local community groups and individuals and support their access and participation in leisure activities, with a specific emphasis on the following groups:
   - Culturally and linguistically diverse communities
   - Aboriginal and Torres Strait Islander residents
   - People with a disability
   - Children and young people
   - Older adults

5. Continue to support the role of women in sport and leisure through the development of policy, facility design and programs.

We will continue to provide a broad range of high quality community services, including specific services targeted to those most in need.

We will work with the community to identify their health, wellbeing and safety needs and develop and implement a coordinated response.

We will research and better understand all the different dimensions of disadvantage in our community, and work to remove or minimise the barriers to community participation and access.

We will place particular emphasis on Darebin’s diversity, including Darebin’s Aboriginal and Torres Strait Islander residents, our culturally and linguistically diverse residents, and our residents with a disability.

We will work to support the right of women to fully and equally engage and participate in the life of the community.
Priority 3
Liveability and Regeneration

Our Leisure Goal

Darebin delivers a range of leisure spaces and facilities from parks and trails to leisure centres, swimming pools and sports grounds. Our goal is to ensure our spaces and facilities continue to meet the changing needs and expectations of Darebin’s community.

Directions

1 Review the grading system of recreation reserves aligned with service standards to increase access, utilisation and effectiveness of existing and future leisure infrastructure.

2 Develop a framework to ensure existing and future leisure infrastructure is renewed, upgraded, maintained and operated to meet service standards to support participation in leisure activity.

3 Develop a process that works towards linking facility provision, standards and quality of facilities, occupancy arrangements, maintenance levels and capital works with fees and charges under a coordinated system.

4 Commit to a program of integrated Masterplans at strategic reserves across Darebin to ensure a planned approach to the future development of key resources.

5 Develop a pavilion hierarchy and development plan to guide the future redevelopment of pavilions with priority given to clubs who are meeting the Leisure Strategy vision and goals.

An example of a key success measure is:

We will work towards developing a minimum of three new lighting projects for sports grounds to bring the facilities up to the Australian standard in each of the first four years of the strategy.
6. Commit to appropriate infrastructure planning and management models for Darebin’s major leisure facilities in recognition of the current and future identified high participation rates including:
   - Darebin Libraries
   - Darebin International Sports Centre
   - Darebin Community Sports Stadium
   - Northcote Aquatic and Recreation Centre
   - Reservoir Leisure Centre
   - Sullivan Reserve Sports Stadium
   - Bundoora Park
   - Darebin Parklands
   - All Nations Park
   - Edwardes Lake Park

7. Investigate opportunities for establishment of synthetic sporting surfaces and ensure resources are available for ongoing maintenance and replacement.

8. Ensure the development or redevelopment of any leisure infrastructure will be in line with access requirements as determined by the Disability Discrimination Act.

9. Encourage co-contribution from sports clubs and community groups to improve community facilities.

10. Recognise high levels of community participation in non-structured recreation by working with other Council departments to continue the enhancement of the walking and cycling environment.
Our Leisure Goal

Leisure helps people celebrate and be involved in their community through recreation, sport, festivals and events. Our goal is a city that respects and celebrates its diversity where everyone is proud of their community and has a strong sense of belonging.

Il tempo libero aiuta la gente a celebrare e a essere coinvolta nella comunità tramite la ricreazione, lo sport, i festival e gli eventi speciali. Il nostro obiettivo è di avere una città che rispetti e celebri la sua diversità e in cui ognuno è orgoglioso della propria comunità e ne ha un forte senso di sentirsi integrato.

Οι δραστηριότητες ελεύθερου χρόνου βοηθούν τους ανθρώπους να γιορτάζουν και να συμμετέχουν στην κοινότητά τους μέσω δραστηριοτήτων αναμυνής, αθλητισμού, φεστιβάλ και εκδηλώσεων. Έχουμε να δημιουργήσουμε μια πόλη που να σέβεται και να γιορτάζει τη ποικιλομορφία της, όπου ο καθένας να είναι περήφανος για την κοινότητά του και να διακατέχει με ένα δυνατό αίσθημα ένταξης.

An example of a key success measure is:

We will work towards achieving the national average participation rate in recreation activities through the term of the strategy. In year one our target will be a participation rate of 83%.

**Directions**

1. Support Darebin’s diverse culture and artistic services throughout the municipality.

2. Identify opportunities to support the casual use of recreational reserves through the provision of infrastructure and amenity.

3. Provide opportunities for pathways of participation in sport at four levels; foundation, participation, performance and excellence, with the priority for future development at the foundation and participation levels.

4. Support community organisations and volunteers through the provision of training and advice.

5. Develop incentive programs to acknowledge promote and reward clubs who are inclusive and who align their activities with the Leisure Strategy vision and goals.

6. Focus on maximising the use of our existing assets and enhancing casual recreation opportunities.

We will foster Darebin’s cultural and artistic vitality through services, programs and events that reflect our community’s diversity.

We will provide and maintain a network of spaces and places designed for both active and passive recreation opportunities.

We will deliver recreation and leisure facilities that provide a range of different experiences and opportunities to residents and respond to their diverse needs.

We will foster a safe environment that encourages residents to participate in community activities and events and endeavour to strengthen a sense of place and improved neighbourhood connections throughout the municipality.
Our Leisure Goal

Our leisure activities and venues are diverse and so are their impacts on the environment. We will demonstrate that programs and policies for protecting the environment are practical, affordable and necessary. Our goal is to be leaders in climate change action and environmental sustainability.

**Directions**

1. Identify ways to reduce the environmental footprint of the operations of leisure facilities and sporting clubs.

2. Use environmentally sustainable design principles in any development or redevelopment of leisure facilities with particular emphasis on water and energy efficiency.

3. Plan for facilities to be resilient to the ongoing impacts of climate change including reducing reliance on water and energy.

4. Commit to the provision of facility infrastructure and behavioural change initiatives to enhance sustainable transport opportunities.

5. Continue to develop facilities at Darebin Parklands and Bundoora Park to enhance their environmental and educational value.

We will reduce the environmental impact of our own operations through a reduction in energy use and greenhouse gas emissions, water consumption and waste generation.

We will place the protection and improvement of the environment at the heart of our decision making in policy, service delivery and regulatory design.

We will protect and improve the city’s biodiversity, natural assets and wildlife corridors, as well as promote and develop pride in the municipality’s natural heritage areas and waterways.

We will place the protection and improvement of the environment at the heart of our decision making in policy, service delivery and regulatory design.
