

### Comparison of mid-year and full year review results

	<b>Mid Year Review (May 2010)</b>	<b>Full Year Review (February 2011)</b>
<b>Enforcement</b>	Number of infringements issued in Preston (19) was almost double to the number of infringements issues in Reservoir (9). The difference between the two sites was the number of repeat offender with Preston having 6 repeat offenders as opposed to Reservoir's 1. This indicates that at the 6 month review, the Alcohol Restricted Zone in Reservoir appeared to be more effective in deterring people from consuming alcohol than in Preston.	Number of infringements issued in Preston (3) was similar to the number of infringements issued in Reservoir (4). All infringements at both sites were one off offences.
<b>Perceptions of Safety</b>	Intercept survey results indicated that generally the community felt either the same or less strongly about the zones impact on safety or reduction of drinking as a result of the trial ARZ. Regardless, community support for the ARZ's remained high.	The intercept survey completed in November 2010 indicated a similar level of response as the mid-year review. In general, the ARZ has had no impact on people's perception of safety although community support for the ARZ's remains high.
<b>Displacement</b>	Issue of displacement were identified at both sites at the mid year review. The key issue identified was the shift of the public drinkers from Cramer Street Preston into the Preston Oval.	Issues of displacement no longer an issue for the Preston Oval. The drinkers at the Preston site appear to have relocated to an alternate site. It has not been possible to collect data related to the drinker's relocation.
<b>Awareness</b>	General community awareness of the ARZ's	General community awareness of the ARZ's

	increased from 13.5% in September 2009 to 34.6% in May 2010. Greater awareness of the zone in Reservoir than Preston.	increased from 13.5% in September 2009 to 40.6% in November 2010. Similar to the mid year review there is a greater awareness of the zone in Reservoir than Preston.
<b>Support</b>	15 week support program commenced at Preston site. Little impact on number of people congregating at the Preston site.	Continuation of Outreach Support Program. During this period a number of the people at the Preston site that were homeless found more permanent housing. Outreach support discontinued due to drop in number congregating at site.
