## PREAMBLE

1. The Victorian Department of Education and Training (DET), the Victorian Department of Health and Human Services (DHHS) and local government, represented by the Municipal Association of Victoria (MAV), enter into this Compact to strengthen the collaborative relationship between these departments and local government in the planning, development and provision of early years services. This Compact demonstrates a shared focus on improving and sustaining outcomes for children and families across all Victorian communities.
2. A well-connected, accessible and effective service system supports families to raise happy and healthy children who can achieve their potential. A collaborative and effective relationship between state and local government provides a foundation for strengthening services for children and families.
3. Consultations with families and those who work in early years services have shown that we need more consistent, measurable and accountable service delivery. Clearly defined roles and responsibilities, joint planning and consistent goals and coordination across the early years services system will support more effective service delivery that maximises benefits for children and families.
4. This Compact aims to lay further foundations for a system that is robust, child-centred and straightforward to navigate, and allows for transition between services when families need them. It recognises the shared accountability of governments and outlines shared objectives and outcomes.
5. State and Local Government would welcome the Commonwealth agreeing to the principles and priorities as outlined in this Compact, recognising the important role the Commonwealth has in providing support to children and families through funding and broad policy settings.

## RELATIONSHIP TO OTHER AGREEMENTS

6. This Compact is not intended to supersede or alter existing contractual arrangements or other agreements between the DET, DHHS and councils or MAV.
7. The Victorian State-Local Government Agreement (VSLGA) 2014 provides an overarching framework to strengthen state-local government relations by committing to improved and sustained levels of communication, consultation and cooperation. It outlines a commitment by both parties to progress social, economic and environmental outcomes for Victorian communities.
8. Sitting beneath the VSLGA, DET and DHHS have bilateral agreements with the MAV: the MAV/DEECD (now DET) Partnership Agreement 2013-17 and the Partnership Protocol between the Department of Human Services, Department of Health (now DHHS) and the MAV 2010. Both of these agreements commit to a formal partnership that is based on a spirit of cooperation and a shared commitment to achieve better learning, health and well-being outcomes for the Victorian community.
9. This Compact sits beneath these agreements and focusses on improving outcomes for children from the antenatal period up to school entry and their families.
10. The parties will continue to work with the Commonwealth Government to promote policy reforms that are of a national significance, or that need coordinated action by all Australian governments.
11. This Compact is not a legally binding agreement, but is negotiated and entered into in good faith by the parties and shall be respected accordingly.

12. The parties agree that in the event of a party stating that one or more undertakings in the Compact is not being fulfilled, the parties will use best endeavors to ensure that the undertaking is satisfied or that an alternative solution is agreed.

## PURPOSE OF THE COMPACT

13. The Compact is between state and local government who together provide collective stewardship of the early years system.
14. The purpose of the Compact is to:
- clarify state and local government **roles and responsibilities** in the planning, funding and delivery of early years services for children from the antenatal period up to school entry;
  - strengthen a shared focus on **improving outcomes** for all children across Victoria supported by sharing of evidence, results and best practice;
  - establish a **strategic foundation** for the effective planning and delivery of agreed system reforms, including the creation of a more connected service system that has sufficient flexibility to support local innovation and responses;

## ROLES AND RESPONSIBILITIES OF THE PARTIES

16. This Compact recognises the complementary roles and responsibilities of each party in the collective stewardship of the early years system. It also acknowledges the role of the Commonwealth Government and non-government service providers as key players in achieving outcomes.

**The Department of Education and Training** supports the learning, development, health and wellbeing of Victorian children through the development of state-wide policy and the provision of funding, planning and regulation for early years services and the transition of children from early years services to schools.

**The Department of Health and Human Services** supports the health and wellbeing of Victorian children through the development of state-wide policy and the funding, planning and delivery of health, human services and sport and recreation programs and services that support children and their families. This includes through services that protect children, build family capability and address trauma.

**Local Government** has a statutory and social responsibility for planning for its local community. It supports the learning, health and wellbeing of Victorian children and families through determining policy at a local level. There are 79 local councils in Victoria. Each one of these takes a place-based approach to planning, funding and infrastructure, as well as the coordination and delivery of services for children and families.

The **Municipal Association of Victoria** has the statutory responsibility to promote the interests of local government and represents all councils.
