

Recommendation No. and Topic	Age Friendly Darebin Recommendation	Council Resolution Officer Recommendation to Council	Year 1 Status and Progress Comments
 Completed	 In Progress / Ongoing	 Planned	 Not Applicable/ Null
<p>1 Assessment My Aged Care</p> 	<p>While the Australian Government continues to provide block funding for CHSP services to DCC, and until the full extent of new arrangements for Assessment Services is made clear, DCC should continue to provide Regional Assessment Services (RAS).</p>	<p>Accept Currently, the Commonwealth contracts the Regional Assessment Service to the Victorian Government, and the State Government sub-contracts to local councils. Council has already resolved to continue providing assessment services while block funding continues. However, the federal government's current advice is that it will proceed to create a new unified national assessment service, effective July 2020. A tender is likely to be released in coming months. Council has been exploring possibilities for tendering and is also encouraging the Victorian government to continue its role.</p>	<p>Completed DCC is continuing to provide RAS and Funded until June 2022 DCC's RAS is a practice leader with requests from DHHS and DHS officials and other councils for details on how we do Reablement work.</p>
<p>2 My Aged Care</p> 	<p>Until, and possibly beyond, the time when the full extent of new arrangements under the Australian Government reforms are made clear, DCC should gather intelligence and case studies highlighting both strengths and weakness of existing practice to inform baseline performance requirements of the new arrangements.</p>	<p>Accept We can collect data from our own clients about people's experiences of Council's services and of My Aged Care. We can also collect feedback from the broader community about their experiences of My Aged Care, and other service providers. This data may inform our own service improvement and Council advocacy efforts.</p>	<p>In progress and ongoing Trial of Positive Ageing Service (navigation) completed successfully, see Trial report for details. Service extended into year 2.</p>
<p>3 My Aged Care</p> 	<p>DCC monitors:(a) demand and supply trends for MAC across the broader catchment area than just the Darebin LGA; (b) the impact of MAC processes on clients, for example, time from referral to response by a provider, or if clients are left without a response.</p>	<p>3(a) Accept, subject to My Aged Care providing data 3(b) Accept My Aged Care does not currently release data referred to in recommendation 3(a). More systematic collection of feedback about My Aged Care would assist Council advocacy.</p>	<p>As per 2 above</p>

Recommendation No. and Topic	Age Friendly Darebin Recommendation	Council Resolution Officer Recommendation to Council	Year 1 Status and Progress Comments
 Completed  In Progress / Ongoing  Planned  Not Applicable/ Null			
4 CALD community 	DCC works closely with CALD communities, seniors' groups and providers to build their capacity to effectively support older people from their communities.	Accept Staff will develop a Senior Citizens Groups Action Plan that will, among other things, plan to build the capacity of CALD community groups. This will be reported on in the formal progress reporting to Council of progress in implementing the Age Friendly Darebin recommendations. The first implementation report to Council will be in February 2020.	Planned for Year 2 As part of Senior Citizens Groups Action Plan
5 Performance targets re CALD in programs 	DCC sets performance targets for the number of people from specific CALD communities participating in programs, including My Aged Care, for older people.	Accept, noting that data for My Aged Care may not be available The first Age Friendly Darebin implementation report will be in February 2020 and will include performance targets for Council programs for older people including Aged and Disability programs, and Recreation & Libraries. As My Aged Care does not release relevant statistics allowing us to track CALD participation in My Aged Care, Council could seek to understand CALD participation in My Aged Care through the Darebin Community Survey or through additional Council-run surveys.	In progress and ongoing Performance with regards to CALD community participation is measured and provided with specific recommendations for improvement systematically via EIWPATtool/process Program evaluations and reviews as a standard component in Council Reports. For example - Library Strategy includes reach and access indicators The Darebin Community Survey is designed for a wide audience so would not be effective for this purpose. A specific survey tool may need to be created using internal resources to: do follow up calls / support clients / access interpreters to support survey participation.

Recommendation No. and Topic	Age Friendly Darebin Recommendation	Council Resolution Officer Recommendation to Council	Year 1 Status and Progress Comments
 Completed  In Progress / Ongoing  Planned  Not Applicable/ Null			
<p>6 Aboriginal and Torres Strait Islander MAC participation</p> 	<p>DCC conduct targeted work aimed at improving the current rates at which eligible indigenous residents are engaged in assessment and connected to recommended aged care services. This should include targeted and culturally appropriate information, navigation and support for Aboriginal and Torres Strait Islander carers and older people to assist them access the aged care services that are available to them. Alongside Aboriginal and Torres Strait Islander specific services, mainstream services must be encouraged to provide culturally informed services to Aboriginal and Torres Strait Islander residents.</p>	<p>Accept The future of Council's assessment service is uncertain after 30 June 2020, due to planned Federal Government changes.</p> <p>However, if the proposed new Darebin navigation and social inclusion service is approved, this could include targeted promotion and engagement with the Aboriginal community with the goal of seeking to increase the rates of Aboriginal and Torres Strait community members accessing the My Aged Care system.</p>	<p>As per 2 above</p> <p>Also, the Navigation Service trial includes specific efforts to engage with Aboriginal and Torres Strait Islander Elders and carers. For example: the team attended the Elders' Seniors Month celebratory afternoon tea to both promote the service and offer on the spot information and support if requested.</p>
<p>7 Advocacy to MAC re Aboriginal and Torres Strait Islander</p> 	<p>In consultation with local Aboriginal and Torres Strait Islander people, DCC identifies both good and bad practice in responding to the needs of older Aboriginal and Torres Strait Islander people and communicate this to the Australian Government to improve practice guidelines for My Aged Care, specifically in delivering services to Aboriginal and Torres Strait Islander residents of Darebin.</p>	<p>Accept This would support and add to Council's advocacy.</p>	<p>As per 6 and 2 above</p>

Recommendation No. and Topic	Age Friendly Darebin Recommendation	Council Resolution Officer Recommendation to Council	Year 1 Status and Progress Comments
 Completed  In Progress / Ongoing  Planned  Not Applicable/ Null			
8 Aboriginal and Torres Strait Islander MAC participation 	DCC should consider providing support, such as respite trips or retreats, for community elders who are carers, while providing support for the people they care for.	Accept This is a new recommendation based on the Panel's meeting with Elders after the initial draft report. Council could work towards providing respite retreats for elders who are carers in 2020/21.	Planned or for review Year 2
9 Aboriginal and Torres Strait Islander MAC participation 	Given that Darebin is a hub for older Aboriginal and Torres Strait Islander people it is important there is a dedicated meeting space within the municipality. It is recommended that Council, in consultation with Aboriginal and Torres Strait Islander elders, investigates creating such a space that services could provide outreach to.	Investigate further/ This is a new recommendation based on the Panel's meeting with Elders after the initial draft report. This would be a long-term goal potentially requiring substantial investment and/or reallocation of existing spaces and would need to be investigated. Advice will come back to Council in 2020.	Planned Current status and work to date: Darebin Aboriginal Advisory Committee (DAAC) meeting feedback from members included seeking further feedback from community on this idea, to inform future planning.
10 Continuous improvement of services 	DCC commits to continual improvement of service effectiveness and impact including maximising independence, socialisation and inclusion, through consultation and co-design with older people.	Accept (Also note Marketing Plan referenced as part of SSG) A Service Improvement Plan (a living document) will be prepared to plan improvements to existing aged care services with particular reference to maximising independence and social inclusion. The Plan will be presented to Councillors in February 2020, and will include co-design of at least one service initiative, to be initially implemented and assessed via a trial. Note: consideration of improvements and additions to the meals service will take place in coming months, with a Councillor briefing and potentially a Council report later in 2019.	In Progress and ongoing Service Improvements, staged over 3 years include the following components: <ul style="list-style-type: none"> • Promotion and marketing plan for all services • Exploring more flexible service provision • Community Transport- new routes • Domestic assistance- flexibility, skill building • Efficiency and cost effectiveness • Trial Personal Care on weekends

Recommendation No. and Topic	Age Friendly Darebin Recommendation	Council Resolution Officer Recommendation to Council	Year 1 Status and Progress Comments
 Completed  In Progress / Ongoing  Planned  Not Applicable/ Null			
			<ul style="list-style-type: none"> Redesigning meals service <p>Services have continued with significant adaptations during COVID restrictions – including training, use of PPE, working from home roles, and increased phone contact and monitoring.</p> <p>Service Improvements seek to provide an improved client experience and increase the involvement of clients and other older residents in codesign and collaborative approaches to service improvements.</p> <p>Improvements for Meals, community transport and rostered services have commenced, detailed below.</p>
11 Client skill building 	DCC focuses domestic assistance on building the older person’s confidence and capability to perform everyday tasks, with workers undertaking tasks that are beyond the capacity of clients.	Accept This will form part of the Service Improvement Plan, to be presented to Councillors in February 2020.	As per 10 above
12 Personal Care on Weekends 	DCC considers providing personal support services on weekends.	Accept This will form part of the Service Improvement Plan, to be presented to Councillors in February 2020.	Planned to Commence 20/21 See also 10 above
13 Phase out Respite Services	DCC closely monitors demand for respite with a view to phasing out delivery of respite funded through the	Not accepted Continue to monitor demand for respite services and regularly review. Darebin's flexible respite service provides a daytime support service for	N/A

Recommendation No. and Topic	Age Friendly Darebin Recommendation	Council Resolution Officer Recommendation to Council	Year 1 Status and Progress Comments
 Completed  In Progress / Ongoing  Planned  Not Applicable/ Null			
	<p>CHSP while either (i) offering respite through HCPs (option 2); or (ii) confirming that other providers are available to respond in a quality and timely way</p>	<p>carers of clients needing assisting support. It also provides one-on-one structured activities to give clients a social experience. Usually this is for maximum 4 hours per fortnight.</p> <p>Client numbers for this service at Darebin have reduced; nonetheless in 2017/18 we had 138 clients for this service.</p> <p>Given that block funding is continuing until at least 2022, winding up this service would be inconsistent with the previous Council resolution to continue CHSP services while block funding is in place.</p>	
<p>14 Redesign Meals</p> 	<p>DCC's meals service is re-designed to:</p> <p>a. further emphasise assisting older residents to prepare their own meals and to share meals; b. provide meals that better match the dietary and cultural preferences of residents; c. consider the addition of alternative providers, including the recent growth of home delivery services from a wide range of culturally appropriate local food retailers; and d. increase the numbers of residents attending meals outside their home, possibly with expanded use of volunteers supplied by the proposed volunteer service.</p>	<p>Accept Currently, Council's meals service delivers meals Monday - Friday. Weekend meals are delivered in advance. In 2017/18 there were 412 clients across the year, and there were 30,818 meals provided.</p> <p>A new service model would <u>retain</u> the elements of the current model for those people who depend on it. But Council can redesign other aspects to 'add value' and better meet currently unmet needs - such as social inclusion, monitoring, support and skill building.</p> <p>Options for additions and improvements to the meals service will be developed for consideration by Council in coming months.</p>	<p>Planning stage, for delivery Year 2</p> <p>Initial work undertaken with consultant to do desktop review of various models, identify strengths and weaknesses of existing model, desired features/outcomes in future, evaluation matrix.</p> <p>Café Meals Trial and other new meals options planned for year 2</p>
<p>15 Social Support</p> 	<p>DCC promotes Yanada House as an outstanding and unique social support program for older people with dementia and tries to build up</p>	<p>Accept, as part of a marketing plan to be developed for all Darebin Aged Care Services. Yanada House provides group-based activities. Almost all clients of this service have dementia and would probably</p>	<p>As per 10 above</p> <p>COVID 19 restrictions have significantly impacted social</p>

Recommendation No. and Topic	Age Friendly Darebin Recommendation	Council Resolution Officer Recommendation to Council	Year 1 Status and Progress Comments
 Completed  In Progress / Ongoing  Planned  Not Applicable/ Null			
	<p>numbers to ensure viability.</p> <p>Failing this, DCC ascertains the interest of other providers of social support groups in establishing a dementia group for the Yanada House clients.</p>	<p>transfer to Home Care Packages in time. There are currently 77 clients of Yanada House. Yanada House services are highly valued by clients and their families and could potentially be part of a trial of Darebin Council offering services to Home Care Package recipients.</p>	<p>connection opportunities for older people, including closure of venues, social support group services and programs.</p> <p>Work conducted with community partners as part of Community Navigation Service to mitigate social isolation and loneliness.</p> <p>Year 2 will include engagement with older people to address social support needs.</p>
<p>16 Community Transport</p> 	<p>DCC focuses on ensuring community bus availability is more fully utilised by:</p> <ul style="list-style-type: none"> a. building up demand; b. increasing flexibility in routes; c. exploring the possibility of using newly available digital network tools to enhance door to door responsiveness and availability. 	<p>Accept. This will be part of the Service Improvement Plan to be developed. The changes can include social inclusion components.</p>	<p>As per 10 above</p> <p>Community bus new destination trials (occurred pre COVID) Northern Community Church, Epping Plaza and Men's group outing to Broadford.</p> <p>Supermarket runs for 'seniors hours' provided in early COVID lockdown period.</p> <p>Further trials, including social meal destinations planned for Year 2.</p>
<p>17 Home Maintenance</p> 	<p>In addition to its own provision of home maintenance services, DCC investigates establishing a panel of local trades people who would be</p>	<p>Investigate further. This would have community benefit, but there are risk and compliance issues still to be resolved. This proposal will be further investigated and reported back to Councillors.</p>	<p>In Progress</p> <p>To combine with information bank held by Positive Ageing service to enable informed decision-making.</p>

Recommendation No. and Topic	Age Friendly Darebin Recommendation	Council Resolution Officer Recommendation to Council	Year 1 Status and Progress Comments
 Completed  In Progress / Ongoing  Planned  Not Applicable/ Null			
	willing to undertake more extensive work than DCC provides.		Small trial of pro bono arrangement access to trades with a local construction company underway.
18 Gardening 	DCC provides a gardening service which includes mowing plus a focus on DCC staff working alongside older people to garden.	Consider options for a lawn mowing and gardening service at a Council meeting later in 2019. (Followed by Council resolution 6 Nov 2019) A gardening service could in part assist people to live well in their homes; it would likely be extremely popular and, depending on the service model, would therefore potentially require very significant resources. There are different options that could be considered: a broad eligibility subsidised professional gardening or mowing service, a narrower eligibility subsidised service, both of which involve using council funds to maintain private assets and to subsidise commonwealth programs. Enabling approaches led by community organisations to connect neighbours and others in helping relationships could be trialled, along with a panel of trades to assist residents to find service providers. Note: there is currently some very limited gardening (eg pruning back of overhanging branches) done occasionally as part of the existing Darebin home maintenance service.	In Progress as part of a trial Contracts in place with providers for Gardening and lawnmowing, trials due for completion November 2020.
19 Nature Strip Mowing 	DCC provides nature strip mowing and a trimming service for overhanging trees and bushes as these can be risk hazards for older people walking and wheeling on footpaths.	Consider options for a lawn mowing and gardening service at a Council meeting later in 2019	As per 18 above

Recommendation No. and Topic	Age Friendly Darebin Recommendation	Council Resolution Officer Recommendation to Council	Year 1 Status and Progress Comments
 Completed  In Progress / Ongoing  Planned  Not Applicable/ Null			
20 Home Care Packages 	DCC to continue CHSP and consider the feasibility of expansion into the delivery of HCP services to enhance continuity of care of clients.	<p>Investigate trial to start in 2019/20 of providing services to Darebin residents with home care packages. Darebin does not currently usually provide services to people with Home Care Packages. Staff are currently exploring a trial of Council providing services to clients in Darebin who have home care packages, in partnership with a not-for-profit home care package provider.</p> <p>A trial could commence during 2019/20 and could also collect data on client experiences of transitioning from CHSP to packages. This could also inform the proposed navigation support and social inclusion service.</p>	<p>In progress</p> <p>A partnership between Council and HCP provider Care Connect is enabling clients who take up a Care Connect HCP to retain their Council worker.</p> <p>Positive Ageing staff facilitate clients to make informed decisions about participation in the Continuity of Care, HCP trial.</p> <p>Positive Ageing Service assisted 95 people with information and support to be able to access or make decisions about a HCP.</p>
21 Social Inclusion Program 	DCC to pilot a social inclusion program while addressing older people's navigation and utilisation of Aged Care system-related risks.	<p>Accept</p> <p>It is proposed that this program be part of a new Social Inclusion & Aged Care Navigation Support Service. This would include:</p> <ul style="list-style-type: none"> • Volunteer program, providing social visiting • Professional advice and assistance on navigating My Aged Care and systems supporting older people, eg home care packages. <p>Proposed components to be funded in 2019/20:</p> <ul style="list-style-type: none"> • Establishment of volunteer program (policy development, staffing coordination, volunteer recruitment). 	<p>As per 2 above re: Navigation</p> <p>Volunteering – In progress</p> <p>Initial work undertaken with Volunteering Victoria to establish a framework and documentation base for volunteer program.</p> <p>Internal liaison with other departments re potential volunteering opportunities</p> <p>Volunteer lead appointed.</p>

Recommendation No. and Topic	Age Friendly Darebin Recommendation	Council Resolution Officer Recommendation to Council	Year 1 Status and Progress Comments
 Completed  In Progress / Ongoing  Planned  Not Applicable/ Null			
		<ul style="list-style-type: none"> • Program of coordinated social visits by trained volunteers • Navigation service, staffed by trained staff with expertise in My Aged Care and knowledge and understanding of local support services. <p>The service could start on a relatively small scale in 2019/20 with a pilot program, and if Council wishes to continue, expand in 2020/21.</p>	<p>A&D Community Engagement Officer actively building participant data base from which to source older residents willing to participate and assist council with this work</p> <p>Trial of social connection program via voluntary participation was planned to commence in early 2020.</p> <p>COVID interrupted the trial at the point of matching due to State restrictions.</p>
<p>22 Social Inclusion Services</p> 	<p>DCC to commence a trial of Social Inclusion Service when resource availability permits, by redirecting its own source revenue; and redeveloping roles and responsibilities to utilise Assessment officers and community support workers.</p>	<p>Accept, with a trial to commence in 2019/20. See comments for recommendation 21 above.</p>	<p>As per 21 above</p>
<p>23 Volunteer Service</p> 	<p>DCC provides a volunteer service to support the social inclusion service with more intense engagement where needed: • the volunteers would not replace paid workers, rather social inclusion workers call in volunteers as needed to provide more intense and informal contact; • the volunteer service would include older people as volunteers for isolated older people.</p>	<p>Accept, with a trial to commence in 2019/20. See comments for recommendation 21 above.</p>	<p>As per 21 above</p>

Recommendation No. and Topic	Age Friendly Darebin Recommendation	Council Resolution Officer Recommendation to Council	Year 1 Status and Progress Comments
 Completed  In Progress / Ongoing  Planned  Not Applicable/ Null			
24 Thin Market services 	<p>Alongside the Social Inclusion Service, DCC continues to provide its own directly funded services where there is a risk that vulnerable CHSP clients may not be able to access necessary services for ageing in place due to 'service holes' or 'thin markets' for example: delivered meals and home maintenance (including gardening).</p>	<p>Accept, as per previous resolution Council has already resolved to continue providing all current CHSP services while federal government block funding is in place.</p>	<p>N/A Services continue</p>
26 Expand Social Housing 	<p>DCC considers purchase of additional land or alternative use of its own land to partner with potential social housing providers or with the Office of Housing to expand the volume of fully accessible public and community housing stock to be offered to older people who are homeless and/or older people living in Supported Residential Services (SRS) or rooming houses.</p>	<p>Consider as part of the development of an Affordable Housing Position Statement, to be developed in 2019/20. Council already has a project to commission affordable housing at Town Hall Avenue, and also to identify other sites for affordable or social housing.</p> <p>Council could choose to change its policy so that potential new affordable housing developments could actively include older people, rather than focusing on addressing disadvantage generally. This would be a change in approach. It will be investigated as part of the development of an Affordable Housing Statement, which will then be presented to a Council meeting for consideration.</p>	<p>Council is leasing land at 52-60 Townhall Avenue Preston for the purpose of affordable housing. A competitive tender process is currently underway. Council is advocating to the state and federal government to increase funding for social housing.</p> <p>Council is undertaking a feasibility study of sites that can be developed for affordable housing.</p> <p>Limitations of Council's role - Housing is a State Government responsibility.</p>
27 Advocacy Private Dwelling Access 	<p>DCC renews its efforts to advocate hard for a minimum regulation for private dwelling accessibility so that there is more accessible rental stock for frail older people.</p>	<p>Accept Council could advocate for minimum accessibility regulations to be triggered when a dwelling is renovated. It would be likely that long-term advocacy to the State Government may be required.</p>	<p>Council's advocacy position on affordable housing in development, along with accessible housing discussion paper.</p>

Recommendation No. and Topic	Age Friendly Darebin Recommendation	Council Resolution Officer Recommendation to Council	Year 1 Status and Progress Comments
 Completed  In Progress / Ongoing  Planned  Not Applicable/ Null			
28 Planning Advocacy 	DCC updates its approach to access in its planning requirements by: a. reviewing existing tools/levers in the planning scheme that could be used to encourage/require accessible features in housing; b. developing additional tools and resources to support developers; and c. implementing liveable housing guidelines similar to Banyule City Council.	Accept Council staff are currently developing a Darebin Accessible Housing Background Paper which will consider guidelines for mandating and/or encouraging accessible features in new housing. The Active and Healthy Ageing Advisory Board has been consulted at its June 2019 meeting. The development of the Housing Strategy should also take account of this recommendation.	Council is progressing an Accessible Housing Discussion paper to inform approaches to increasing accessibility in private developments.
29 Policy and Advocacy affordability and access 	DCC adopts a policy position and advocacy commitments similar to the City of Whittlesea: • “That every person has a right to affordable, adequate and appropriate housing to enable their participation and sense of belonging in community life.” • Commitment 1: State-wide planning measures should be adopted that mandate and incentivise Social and Affordable Housing (Victorian Government). • Commitment 2: All new social housing dwellings should be required to comply with the Liveable Housing Design Guidelines Housing (Victorian Government). • Commitment 3: Take action to break the cycle of homelessness by adequately investing in the housing	Accept, with a Affordable Housing Position Statement to be developed for consideration by Council. This will be incorporated into the affordable housing position statement which will be developed, for consideration at a Council meeting in 2019/20.	Council is developing its own advocacy position on affordable housing. Council is also developing an accessible housing discussion paper to encourage higher standards of accessibility in private dwellings.

Recommendation No. and Topic	Age Friendly Darebin Recommendation	Council Resolution Officer Recommendation to Council	Year 1 Status and Progress Comments
 Completed  In Progress / Ongoing  Planned  Not Applicable/ Null			
	<p>and homelessness sector to assist people across all life-stages (Victorian and Australian Government). • Commitment 4: The National Rental Affordability Scheme should be reinstated (Australian Government).</p>		
<p>30 Mobility equipment loans</p> 	<p>DCC establishes a Mobility Equipment Loans Scheme (similar to a Toy Library), in partnership with a Non-Government Organisation (NGO) expert in disability equipment.</p>	<p>Investigate further Need further investigation of the demand and need in Darebin for this service. There are existing local equipment options locally available through Austin and Northern Health, plus equipment loan schemes available outside Darebin (eg Travellers Aid, Yooralla).</p> <p>A mobility equipment loans scheme would be a significant new Council run service. Council could instead promote existing services and monitor service gaps.</p>	<p>Investigation planned for year 2</p>
<p>31 Refurbish mobility equipment/volunteers</p> 	<p>DCC examines the feasibility of donated and recovered mobility equipment being restored by using a volunteer program established with a Men's Shed, also including older people.</p>	<p>Investigate further. This can be investigated as part of the investigation of a mobility equipment loans scheme (recommendation 30).</p>	<p>As per 30</p>
<p>32 Home Modification social enterprise</p> 	<p>DCC examines the opportunity for facilitation of a start-up home modification social enterprise, connected to a Men's Shed and/or TAFE and supported by local businesses in a community business partnership.</p>	<p>Accept. Further investigation is required, and it will be considered in conjunction with recommendation no. 17 (Panel of Trades). This would likely be considered for implementation in year 2, 2020/21.</p>	<p>Investigation planned for year 2, combined with 30 and 31</p>

Recommendation No. and Topic	Age Friendly Darebin Recommendation	Council Resolution Officer Recommendation to Council	Year 1 Status and Progress Comments
 Completed  In Progress / Ongoing  Planned  Not Applicable/ Null			
33 Hoarding/ Squalor 	DCC considers the extent of services for people living in squalor, particularly considering older people living in rentals and boarding and rooming houses, as well as homeowners, and develops an appropriate response with existing providers.	Accept There is existing work being undertaken by an internal Council working group that addresses this recommendation in part. Referral pathways and resident support would also be enhanced by establishment of the recommended Social Inclusion and Aged Care Navigation Support Service.	As per 2 above Ongoing Resident or internal enquiries regarding situations of hoarding and squalor have been incorporated under the Positive Ageing and HACCPYP workflows in liaison with Local Laws & Animal Management, and external partners.
34 Responses to extreme weather 	DCC adds to its monitoring of CHSP clients during heatwaves by also monitoring those at risk on extreme cold days, especially focusing on homeless older people.	Investigate through a trial Darebin currently monitors Council's CHSP clients at risk on hot days. This will be extended to include cold weather responses. Extending monitoring to people who are <u>not</u> clients could potentially be done through the proposed new social inclusion and navigation service support service.	Completed Review of client monitoring practices during extreme weather is completed. A broader review of monitoring needs for CHSP clients has also been conducted in context of COVID. Outreach/monitoring of older homeless people is a function of the new Homeless persons outreach.
35 Safe from Crime 	DCC formalises a program to collaborate with local police to improve older peoples' awareness of common at-home risks.	Accept DCC already has formal points of collaboration and existing relationships with police and other stakeholders, including the Community Safety Reference Group. Council should work to increase the focus on older people to help them feel safer at home and more connected in their neighbourhoods. This will be reported on in the regular Age Friendly Darebin implementation reports.	Ongoing

Recommendation No. and Topic	Age Friendly Darebin Recommendation	Council Resolution Officer Recommendation to Council	Year 1 Status and Progress Comments
 Completed  In Progress / Ongoing  Planned  Not Applicable/ Null			
37 Home Share Co-housing 	DCC facilitates the establishment of a Darebin Home Share and co-housing program in partnership with an NGO with established home share systems and processes.	Investigate Home Share further Home Share Pilot schemes are occurring in Sydney (two Councils and an NGO) and in Adelaide (a research project matching older persons into share accommodation). City of Port Phillip were investigating with Launch Housing - as a solution to people at risk of homelessness, however the model did not proceed. Staff suggest that Home Share be investigated further in 2020 in the light of results of the pilot schemes. Co-Housing would be a major new project with very significant challenges - for instance of new developments, where a number of homes have a mix of private space with shared communal amenities.	Plan for Year 2
38 Home Share Co-housing 	DCC markets and promotes Home Share and co-housing to older people via social inclusion workers and community organisations.	Investigate Home Share further. See Recommendation 37.	As per 37
39 Home Phone Engagement 	DCC explores establishing a Home Phone Engagement Scheme with a NGO partner for social engagement on the phone for isolated and/or housebound residents.	Accept Investigate and pilot volunteer program as part of a proposed trial of a Social Inclusion and Aged Care Navigation Support Service and volunteer program.	As per 2, 21 and 22 above
40 Walking and Wheeling groups 	DCC develops a walking (and wheeling) group program to facilitate groups of older people, including older people in public housing, boarding and rooming houses as well	Accept This will be informed by the recommended group/club mapping exercise in Recommendation 70. it could encompass joined up walking networks in partnership with Neighbourhood Houses, Community Health services etc.	In progress Incorporated in the Darebin Get Active program.

Recommendation No. and Topic	Age Friendly Darebin Recommendation	Council Resolution Officer Recommendation to Council	Year 1 Status and Progress Comments
 Completed  In Progress / Ongoing  Planned  Not Applicable/ Null			
	as those using walking frames and wheelchairs.		Planning in progress to see how program can be safely delivered during COVID 19.
41 Older People Open space audit 	DCC establishes the Older Peoples' Open Space Audit Advisory Team made up of older volunteers who would be willing to participate in regular audits with DCC staff to consider footpaths, seating, toilets, bus and tram shelters and lighting.	Accept This would be implemented as a panel of older people trained in place audits, safety and accessibility requirements. This would provide a pool of residents to draw from, with the pool to be recruited to intermittently. The panel of people could contribute to select projects each year so as to fulfil the 'age lens' on funded projects (or in specific locations). The timing of the involvement of the audit team within each project will need to be managed so as to enable expectations (of the audit team) to be achievable. Funds and capacity would need to be budgeted for 2020/21 so that place-based audit recommendations could be implemented.	Planning stage A&D Community Engagement Officer actively building participant data base from which to source older residents willing to participate and assist council with this work. Audit work planned for Year 2
42 Walking redefined and embedded in policy 	DCC adds the word 'wheeling' and the disability symbol into all of its walking policies, strategies and projects in order to normalise 'walking' with a walking frame, in a wheelchair or on a mobility scooter, and ensure that people who use mobility equipment are included in walking strategies.	Accept 'Walking and wheeling' can be inserted into relevant strategies, and where appropriate, mobility graphics can also be inserted into design.	Completed

Recommendation No. and Topic	Age Friendly Darebin Recommendation	Council Resolution Officer Recommendation to Council	Year 1 Status and Progress Comments
 Completed  In Progress / Ongoing  Planned  Not Applicable/ Null			
43 Footpaths PPN 	<p>DCC introduces an additional footpath category into the Principal Pedestrian Network (PPN) that addresses access for older people. This additional category should: a. be based on the location of older people’s homes and their daily needs including access activity and recreation centres, health and community services, parks, clubs, public transport and shopping; b. have a higher inspection frequency than the current ‘Other’ category (i.e. 12 months); c. provide a mechanism to allocate targeted funding to address priority renewals (i.e. additional to the footpath renewal budget); and d. identify footpaths and roads to be prioritised for renewal in order to construct appropriate ramps across curbs and gutters (i.e. pram crossings).</p>	<p>Investigate future Age Friendly infrastructure funding scheme for the Principal Pedestrian Network, subject to budget allocation in 2020/21.</p> <p>The Darebin Principal Pedestrian Network is based on weighted heat mapping of journeys between homes, employment origins and 14 key destinations, including public transport stops, shopping areas, community and health facilities and parks and open space. Council investment is based on a number of criteria, including likely pedestrian volumes and safety issues, to deliver the level of service identified in the Walking Strategy. The level of service for older adults will generally be improved through the investment program, which will support access for all age groups, but especially older and younger pedestrians as vulnerable users.</p> <p>Based on census data, the locations of highest concentrations of older adults in Darebin do mostly have PPN routes accessing them. However, they might not provide the fine-grained network that would be ideal, and in a few cases they are not on PPN routes. A possibility might be a new Aged Friendly walking infrastructure funding stream, similar to the existing schools focused stream.</p>	<p>In Progress and ongoing</p> <p>Council invested over \$3M in 2019/20 in projects to improve the walking environment and make it safer for vulnerable road users, focusing on access to key community destinations, and is looking to increase the focus on access to buses, and access in areas where more older adults are living through future budgets.</p> <p>The Notice of Motion from the Council meeting on 6 November 2019 required Council to develop a ‘Grey Spot’ road safety program focussed on older residents over 65 years of age. Projects responding to this are being prioritised in future budgets.</p> <p>Footpath maintenance, repair and upgrade works, including pram ramps, are currently prioritised based on the highest risk, and also on the Principle Pedestrian Network.</p>
44 Toilet location (planning) 	<p>DCC ensures that the location of new toilet facilities (which should all be fully accessible to people in wheelchairs) is informed by the location of older people’s homes and their daily needs including access</p>	<p>Accept</p> <p>For consideration as part of open space planning and other planning involving consideration of new toilet facilities.</p>	<p>In progress and ongoing</p> <p>Council has committed to constructing four new ‘Changing Places’ facilities so far one has been</p>

	activity and recreation centres, health and community services, parks, clubs, public transport and shopping. In particular, the location of new toilets should be integrated with the proposed new Older Person category of PPN discussed above.		completed and one is under construction. Accessibility is considered in planning of all new toilets The Public Toilet Strategy 2015-2025 includes accessibility objectives and guides upgrades of existing toilets. Upgrades to the following toilets are taking place: Westgarth Village, Thornbury Village, Edwardes Lake Park and Bundoora Park.
45 Toilet (operations) 	DCC ensures that public toilets, including accessible toilets be open, at a minimum, for use during daytime.	Consider as part of budget process for 2020/21. Some toilets within sports grounds that are attached to sports facilities are closed during daylight hours and are open only when sports clubs are in attendance. To open them daily will have budget implications including opening/closing and cleaning. Opening these toilets on a 7-day per week basis would cost approximately \$100K p.a.	Investigate further year 2 Darebin Public Toilet Strategy 2015–25 and action plan.
46 Pedestrians (planning) 	DCC ensures that pedestrian crossings be well signed, clearly marked, plentiful and well positioned to prevent older people from taking risks crossing roads, most particularly in more disadvantaged pockets of Darebin.	Accept Two new crossings are scheduled for 19/20 in line with existing strategies. These factors are already taken into account through existing transport planning and engineering practices.	In progress and ongoing 6 new Age Friendly pedestrian crossings completed. A Transport Advocacy plan is currently being developed to assist construction of two additional priority signalised crossings in Fairfield and Preston.

Recommendation No. and Topic	Age Friendly Darebin Recommendation	Council Resolution Officer Recommendation to Council	Year 1 Status and Progress Comments
 Completed  In Progress / Ongoing  Planned  Not Applicable/ Null			
47 Pedestrians (planning) 	DCC ensures that traffic lights be positioned in high traffic areas and have mechanisms to slow them down so that older people can walk across the street safely.	Accept This is in line with existing strategies. A pedestrian crossing gap analysis was conducted and endorsed by Council in 2017, with the priority list referred for future funding.	As per 46 above
48 Pedestrians (planning) 	DCC ensures that pedestrian crossings are brought into alignment with the new Older Person category of PPN to create a seamless safe walking network.	Investigate future Age Friendly infrastructure funding scheme for the Principal Pedestrian Network, subject to budget allocation in 2020/21. This will be covered as part of the PPN response above - as per Recommendation 43	As per 46 above
49 Water Fountains 	DCC ensures that water fountains be available and easy to use in all open spaces and along walking paths.	Accept This should be a Council goal but will be an ongoing challenge. Additional water fountains were funded in 2018/19. Water fountains are considered as part of master planning and park and street upgrades but there is no overarching water fountains strategy. Can also be looked at by Older person's Audit advisory team (as per Recommendation 41).	In progress From Breathing Space 2019, The Darebin Open Space Strategy, Council has committed to increasing the provision of drinking fountains across Darebin's open space network and their installation will be considered in all future open space projects.
50 Street Seats 	DCC ensures that street seats are sufficient in number and are well-positioned on walking routes for older people to be required to walk for no more than 0.5 km before being able to have a seat.	Accept This should be a Council goal but will be an ongoing challenge. Seating is considered when site specific master plans or projects occur. There is currently no overarching seating strategy. Can consider budget allocation for a new seating program and consider budget allocation 20/21. Long-term funding would probably be required to meet the 0.5km goal.	In progress and ongoing Breathing Space Strategy includes Age Friendly aligned objectives including street furniture (availability, types and positioning)

Recommendation No. and Topic	Age Friendly Darebin Recommendation	Council Resolution Officer Recommendation to Council	Year 1 Status and Progress Comments
 Completed  In Progress / Ongoing  Planned  Not Applicable/ Null			
51 Recreation, seating and inclusion 	DCC ensures that in parks and gardens and other recreation spaces, seats are plentiful and grouped to encourage conversation and exchange.	Accept This is important where the local context supports it and will be implemented gradually through planned open space renewal works.	As per 50 above
52 Seats 	Street seats have backs rather than benches.	Accept Guidelines will be developed which require backs on street seats, except for in special circumstances.	As per 50 above
53 Lighting 	DCC refers street lighting, particularly in relation to risk of falls and personal injury, to an Older Person Open Space Audit Advisory Team.	Accept As per Recommendation 41	In progress and ongoing Street lighting in Darebin is managed by a Distributed Network Supply Provider (DNSP). Council receives requests in relation to lighting and responds to these as needed. Council has operational budget to undertake upgrades to street lighting and respond to request for additional lights.
54 Open Space 	A specific section of Darebin's Open Space Strategy be developed with the aim of increasing older peoples' usage. The development of this strategy should involve older people as the lead advisors.	Accept Older people have been involved in consultations. The draft Open Space Strategy has looked at open spaces being as accessible as possible for all users. Draft strategy wording will be updated so as to be made more explicit.	In progress and ongoing As per 41 above Breathing Space 2019, The Darebin Open Space Strategy includes explicit mention of access and accessibility for all users.

Recommendation No. and Topic	Age Friendly Darebin Recommendation	Council Resolution Officer Recommendation to Council	Year 1 Status and Progress Comments
 Completed  In Progress / Ongoing  Planned  Not Applicable/ Null			
55 Recreation/exercise equipment 	DCC explores the possibility of permanent games and exercise equipment for older people as part of this targeted strategy aimed at older people.	Accept This will be considered in future open space planning.	In progress and ongoing Managers from Parks and Open Space, City Futures and Recreation and Libraries met, discussed and agreed that: This requirement <u>will and is</u> being embedded into any open space and or play space planning and design process. Identification of existing locations of outdoor gym equipment has been completed; showing there are 12 stations across the municipality (6 locations in Reservoir, 3 in Preston, 1 in Thornbury, 1 in Northcote and 1 in Bundoora).
56 Open Space 	Open space planning is informed by the location of older people's homes and their daily needs including access to activity and recreation centres, health & community services, parks, clubs, public transport and shopping.	Accept Open space planning needs to be informed by all user needs. This must include older people and the needs identified in this recommendation.	As per 54 above
57 Dogs in open spaces 	DCC takes into account risks and benefits to older people in any future reviews about the rules relating to dogs in open spaces.	This will be considered in any future reviews	Review in 20/21 for possible implementation in the 2021 Domestic Animal Management Plan
58 Accessible Community Facilities	DCC's next infrastructure audit: <ul style="list-style-type: none"> • undertakes a comprehensive access audit of all Council facilities; 	Accept Council's previous building condition audits include review of compliance with building accessibility	In progress and ongoing 6 Senior Citizen Centres refurbished

Recommendation No. and Topic	Age Friendly Darebin Recommendation	Council Resolution Officer Recommendation to Council	Year 1 Status and Progress Comments
 Completed  In Progress / Ongoing  Planned  Not Applicable/ Null			
	<ul style="list-style-type: none"> • develops a priority list to address the access issues as identified above; • allocates adequate recurrent funding for annual minor works that should not be less than \$50,000; and • considers an appropriate and feasible timeframe to ensure that all DCC facilities are accessible for the current generation of older people. 	<p>standards. The building renewal budget, which is \$6 million in 2019/20, funds (among other things) progressive accessibility upgrades for Council's buildings. A timeline for achieving compliance at all buildings will be developed.</p>	<p>Condition report for all council properties prepared by consultants CT Management undertaken</p> <p>Upgrades at Jika Jika, Alphington Community and Preston Maternal Child Health Centres for improved accessibility for people with mobility impairment.</p>
<p>59 Public Transport</p> 	<p>DCC undertakes a strategic piece of advocacy in conjunction with other Councils, targeting the State Government's unrealistic timelines for making public transport fully accessible for the current generation of older people.</p>	<p>Accept Consistent with Council plan and current advocacy activities.</p>	<p>Transport advocacy plan completed</p>
<p>60 Training - Public transport</p> 	<p>DCC provides public transport familiarity training opportunities for older people.</p>	<p>Investigate further. Staff report past trials have been conducted with limited success. Opportunity could be to either collaborate with an organisation providing similar training such as Travellers Aid, or for Council to run sessions as part of a program with social connection goals as well.</p>	<p>This will be referred to future years, or as opportunity presents or need identified.</p>
<p>61 Public Transport (advocacy)</p> 	<p>DCC consults with the State Government on the development of an implementation plan to ensure adequate provision of bus and tram shelters.</p>	<p>Accept - Council will advocate to the State Government This is supported as an advocacy measure.</p>	<p>Completed as per 59</p>

Recommendation No. and Topic	Age Friendly Darebin Recommendation	Council Resolution Officer Recommendation to Council	Year 1 Status and Progress Comments
 Completed  In Progress / Ongoing  Planned  Not Applicable/ Null			
62 Public Transport (seating) 	DCC ensures that seating at bus and tram stops is consistent with recommendations in relation to a seamless, safe and accessible walking network for older people.	Accept - Council will advocate to the State Government This is supported as an advocacy measure.	As per 59 and 61
63 Seniors' Driver Education 	DCC arranges for regular 'driving brush up' courses for older people to be provided with driving instructors as a way of lowering risk.	Further promote existing programs available Already in existence at Darebin, with programs run twice annually with RACV.	Completed Wiser Driver courses will be run in 2020/21, COVID restrictions permitting.
64 Car Parking 	DCC expands the number of non-regulated parking places close to senior citizens centres, considering a range of more innovative approaches to meet older people's need for parking, for example: <ul style="list-style-type: none"> • Creates drop-off/pick-up parking zones for older people in front of services older people frequently use; e.g. health services, shopping centres, seniors' clubs, sport and community groups; • Allocates parking for older people at designated times: • Works with business owners/traders' associations to allocate parking for older people at the rear entrance of shops (i.e. where staff park or for non-delivery times) • Links with volunteer driver or 	Defer for further consideration There is no current mechanism to have parking spots allocated for older people only - this would be unenforceable. <p>Additional car spaces at Seniors Centres or changes to parking restrictions near Seniors Centres will be considered on a case by case approach (that is, a local approach).</p> Advocating for free public transport for older people may be a possible position for Council but would need to consider other disadvantaged groups as well. Developing an Uber Local program is not supported. Council will be reviewing its community transport service as part of the Service Improvement Plan.	In Progress and ongoing Retrofitting of car parking spaces comply with DDA guidelines Approaches to managing and increasing parking spaces for people with a disability is currently being investigated. Other options for increasing access for older adults through pick up or drop off, rear of property access, or work with developers to provide priority spaces and access will be investigated in future years. A Transport Advocacy plan is completed

Recommendation No. and Topic	Age Friendly Darebin Recommendation	Council Resolution Officer Recommendation to Council	Year 1 Status and Progress Comments
 Completed  In Progress / Ongoing  Planned  Not Applicable/ Null			
	develop 'Uber local' for pick-up and drop-off (this could also be considered as possible economic development activity); <ul style="list-style-type: none"> • Advocates for free public transport for older people in off-peak periods; • Includes drop-off/pick-up drive throughs as a requirement in the design of new developments or redevelopments. 		
65 Community Transport (vulnerable cohorts) 	DCC encourages the use of community transport by older people living in boarding and rooming houses, public housing and from other vulnerable groups and also in more disadvantaged parts of Darebin, to broaden the group of older people who know of its availability and how to access it.	Accept This will form part of the Service Improvement Plan.	As per 16 above
66 Information Project 	DCC establishes an ongoing Older Peoples' Participatory Information Project.	Accept - subject to the Advisory Committees Review This should be targeted at improving or transforming particular information resources (eg Older and Active in Darebin newsletter, or the Living in Darebin guide). This could be set up as an ongoing group or alternatively participatory panels could be established for each specific project.	In progress and ongoing See also 41 Advisory Committees Review result did not specifically address this recommendation. A&D Community Engagement Officer actively building participant data base from which to source older residents willing to participate and assist council with this work.

Recommendation No. and Topic	Age Friendly Darebin Recommendation	Council Resolution Officer Recommendation to Council	Year 1 Status and Progress Comments

			<p>A group of older residents participated in a workshop in August to name the Navigation Service being trialled (“Positive Ageing”).</p> <p>Another group of older residents provided advice in November regarding content and appearance of community version of AFD interim report.</p>
67 Information Advisory Group 	DCC establishes an Information Advisory Group of older people, including representatives from all vulnerable groups.	Accept - subject to the Advisory Committees Review Prior to establishing a new advisory group consider the framework and criteria as the result of the advisory committee Review.	As per 66 above
68 Support access to Information (volunteers) 	DCC considers using volunteers from the proposed volunteer service at libraries to assist older people to fill in online and paper forms and applications – regular weekly sessions could be trialled.	Accept This can form part of the trial design of the recommended Social Inclusion, Information Navigation, Support and Volunteer Service. This service could extend its volunteer service offering to assist residents with filling out forms. This service could potentially complement existing programs in libraries, such as the Justice of the Peace sessions. The trial would start in 2020.	As per 21 above Libraries Victoria assist with training re: MyHealth
69 Digital access and capacity 	DCC takes a systematic approach to ensuring that digital opportunities are extended to vulnerable older citizens who are currently excluded. This includes: • supply of basic equipment such as iPads; • supporting	Accept, with the development and implementation of digital strategy as part of the overall Library strategy and subsequent action plan. There are existing digital opportunities offered through libraries that address some of the needs of older residents. Future initiatives would be best	In progress and ongoing Digital actions incorporated in the Libraries and Learning Strategy

 Completed  In Progress / Ongoing  Planned  Not Applicable/ Null			
	rather than remaining as a service offering.	For future development to be most effective, it would need to be based on evidence of needs and what is currently available in local neighbourhoods. This would enable determination for example, of whether local partners are already involved and who may be best placed to deliver these programs via neighbourhood based work, or other courses of action.	East Reservoir with a focus on food security and social inclusion.
71 Community development/clubs and groups 	DCC develops and facilitates an Older Persons Community Group Network of all older peoples' community groups for learning and knowledge exchange, with participation by all Presidents of older peoples' community groups.	Accept This is one of several recommendations about seniors' groups and clubs: 4, 40, 70, 71, 80, 81, 84, 85. The proposed Seniors Groups Action Plan would address these collectively. Progress against the plan would be reported on as part of Age Friendly Darebin reporting.	As per 4 above
72 Spaces and co-location arrangements 	DCC considers adding to the space available for older peoples' groups that would benefit from a permanent venue by: <ul style="list-style-type: none"> identifying one larger DCC owned space that is little or unused and two smaller DCC owned spaces - with at least one of these being located in a more disadvantaged part of Darebin; refurbishing the three spaces into numbers of offices/desks (sharing photocopiers etc.) and numbers of large meeting and activity spaces - enough so that groups can schedule 	Accept This would be a longer-term goal. Potentially, rather than a new stand-alone facility this proposal could be incorporated into currently planned community facility developments (eg new intergenerational hubs planned in coming decade). Trialling co-shared spaces at East Preston Community Centre may also be a possibility in the shorter or medium term.	Planned year 2

Recommendation No. and Topic	Age Friendly Darebin Recommendation	Council Resolution Officer Recommendation to Council	Year 1 Status and Progress Comments
 Completed  In Progress / Ongoing  Planned  Not Applicable/ Null			
	many more activities; <ul style="list-style-type: none"> • some of the larger community organisations such as University of the Third Age (U3A) could have branches in the co-shared spaces; • a lead organisation such as U3A or a Neighbourhood House should be identified and funded to manage the space as well as support the other co-tenant groups. 		
73 Grants and intergenerational inclusion 	DCC provides targeted grants for general community groups who are planning to include more older people by providing grants for: <ul style="list-style-type: none"> • adapted equipment for sports and recreation; • outreach to attract older people; • development of creative works with older people as lead participants. 	Investigate through trial in 20/21 This needs to be investigated further by review of data from grant applications and appropriate actions determined.	In progress and ongoing Implementation of the Darebin Grants Model endorsed by Council in February 2019.
74 Grants (New) 	DCC makes small grants available to support new groups and activities, as well as to assist generic community groups to adapt and include older people. These grants should focus particularly on assisting community activities and groups in geographically disadvantaged areas of Darebin, and groups, such as Matrix, that have not received funding to date.	Accept, noting that this is already in place. Current small grants criteria do consider disadvantage and place-based approach. Many groups for older people receive grants through Council's small grants scheme. There will be a future report to Council in October 2019 reviewing the application of the new grants process overall, and this recommendation will be considered in that report.	See 73 above

Recommendation No. and Topic	Age Friendly Darebin Recommendation	Council Resolution Officer Recommendation to Council	Year 1 Status and Progress Comments
 Completed  In Progress / Ongoing  Planned  Not Applicable/ Null			
75 Events/co-design 	DCC supports older peoples' events that encourage older people to lead festivals and event initiatives.	Accept, with a trial to occur in 20/21 subject to funding Incorporate as part of Arts Strategy - one which makes inclusion of older people systemic, focusing on intergenerational opportunities: 1) Aim for integration of seniors' creative work as part of Autumn festival 2021. Incorporate into Open Access program. Promote older people and groups to register their events and arts initiatives. 2) Aim for the Seniors Festival to have broader community engagement than it has had previously—so that Seniors Festival events are celebrating, not segregating, creative works for and by seniors. Funding will be required to implement this recommendation.	Planned for year 2 Planning commenced for FUSE festival event originally planned for Spring FUSE, postponed due to COVID, now planned for April 2021.
76 Events, participation Inclusion 	DCC develops a robust outreach strategy for festivals and events focused on including disadvantaged older people and ensuring that participation in the event is not limited to those 'in the know'.	Accept Festivals and events currently have an extensive and inclusive range of promotion and participation approaches. Further investigation will look at barriers to access, and to developing an appropriate response. Addressing barriers to participation may be achieved through the work of Social Inclusion, Information Navigation, Support and Volunteer Service. For instance, volunteers may accompany people to festivals and events.	Planned year 2

Recommendation No. and Topic	Age Friendly Darebin Recommendation	Council Resolution Officer Recommendation to Council	Year 1 Status and Progress Comments	
 Completed  In Progress / Ongoing  Planned  Not Applicable/ Null				
77 Arts/funding 	DCC provides certainty for multiyear funding for events to increase participation rates.	Note that annual budget allocations are subject to the annual budget process under the Local Government Act The Arts Strategy and the Festivals Framework provides strategic direction for events and festivals, but annual budget allocations are subject to annual budget process under the Local Government Act.	N/A	
78 Senior Citizens Clubs new funding model 	DCC develops a new model for funding senior citizens clubs, which should include consideration of: <ul style="list-style-type: none"> • ceasing funding based on per capita membership; • providing a base amount to all groups for the running cost for the group - meetings, governance; • continuing to provide in-kind financial auditing and public liability insurance for all groups; • providing in-kind venues (and where requested office/desk); • directly subsidising bus trips, including procuring a bus charter; • ensuring that older people from vulnerable groups are included in club activities with targeted funding for specific activities; • funding (via application process) specific outreach activities and Darebin area focused membership 	Investigate as part of the development of the Senior Citizens Groups Action Plan The report identifies a number of ways that support for senior citizens clubs could be changed in order to add to community benefit. The report proposes changing the funding model for senior citizens groups in various ways and introducing more targeted funding. Currently, clubs are funded on a per-member basis. Some senior citizens groups are concerned about changing this model and further investigation is required. The recommendation also includes establishing three co-location spaces for senior citizens groups. This will require longer-term investigation of potential sites. Proposed changes would be included in the Senior Citizens Groups Action Plan which will be developed.	As per 4 above Senior Citizens Action Plan	

Recommendation No. and Topic	Age Friendly Darebin Recommendation	Council Resolution Officer Recommendation to Council	Year 1 Status and Progress Comments	
 Completed  In Progress / Ongoing  Planned  Not Applicable/ Null				
	drives, as well as activities in more disadvantaged pockets of Darebin; <ul style="list-style-type: none"> • looking for three locations to establish co-location spaces for interested senior citizens groups to be able to have office/desk space to establish as headquarters; • funding a lead organisation to undertake venue management, support, facilitation, mediation; • establishing clear expectations and outcome measures regarding outreach and inclusion of older people who are vulnerable and/or currently excluded. 			
79 U3A funding 	DCC supports U3A with an annual DCC grant of a minimum of \$4,000.	Accept for 2019/2020 subject to a funding agreement /This can be funded in 2019/20. Going forward in future years it can be considered as either part of the seniors' groups' action plan or incorporated into the community grants process in some way.	Completed \$4000 grant provided to U3A.	\$4,000
80 U3A outreach 	DCC provides targeted funding to U3A to reach out to older people in the community who do not know about U3A and/or may feel intimidated attending and to offer buddying and support for participation.	Investigate through a funded pilot program with U3A, subject to negotiation and agreement/ Investigate through a funded pilot program with U3A and/or other community groups, subject to negotiation and agreement.	As per 4 above Investigation planned as part of Seniors Citizens Action Plan,	

Recommendation No. and Topic	Age Friendly Darebin Recommendation	Council Resolution Officer Recommendation to Council	Year 1 Status and Progress Comments	
 Completed  In Progress / Ongoing  Planned  Not Applicable/ Null				
81 U3A Lead organisation 	DCC considers U3A as a possible lead organisation in the recommended co-located space for older peoples' community groups.	Accept - Investigate further as a long-term goal. Possibly, the review of East Preston Community Centre governance and operation model could see opportunities for U3A. To explore with U3A and/or other community groups.	As per 4 above Investigation planned as part of Seniors Citizens Action Plan,	
82 Transport and Men's Sheds 	DCC provides community transport assistance to allow more men to attend a Darebin Men's Shed.	Accept This will form part of the Service Improvement Plan.	See 16 above	
83 New Men's Shed 	DCC considers establishing a new Men's Shed in Darebin, to promote geographic access, either co-located with a Neighbourhood House or at the proposed new co-located community hub (refer to Recommendation 72).	Accept, for investigation in the longer term / There are two existing Men's Sheds- one at Your Community Health and the other at Alphington Community Centre. Span community centre also have a program called OMNI - Older Men New Ideas. The Your Community Health Men's Shed was not successful in its grant application to Council for 2019/20, due to strong competition for grants from community groups and services. Given the Age Friendly Darebin recommendation to expand the number of men's sheds, staff recommend that Age Friendly Darebin funding be used to support the Your Community Health Men's Shed in 2019/20, to avoid a reduction in services available.	Completed	

Recommendation No. and Topic	Age Friendly Darebin Recommendation	Council Resolution Officer Recommendation to Council	Year 1 Status and Progress Comments	
 Completed  In Progress / Ongoing  Planned  Not Applicable/ Null				
84 Probus Outreach 	DCC considers offering targeted funding to Probus Clubs to reach out to older people in the community who do not know about Probus and/or may feel intimidated attending and to offer buddying and support for participation.	Investigate through a funded pilot program with Probus, subject to negotiation and agreement Investigate through a funded pilot program with Probus and/or other community groups, subject to negotiation and agreement	As per 4 above Investigation planned as part of Seniors Citizens Action Plan.	
85 Carers Support Groups (diversity) 	DCC considers commissioning Carers Victoria to partner with DCC in supporting the development of new Carers' groups for Lesbian, Gay, Bisexual, Transgender, Intersex and Queer (LGBTQI), CALD and in other locations and communities that do not have carers groups.	Accept Carers Victoria has a model and program to support LGBTIQ carers, which could be delivered locally with Council support. Establishing need would be the first step and then a program could be developed. Note- there may potentially be a need for a stand-alone carers group to support carers who are both LGBTIQ and CALD, anticipating they will have unique and complex needs.	As per 4 above Investigation planned as part of Seniors Citizens Action Plan.	
86 Grief Groups 	DCC considers commissioning Compassionate Friends to partner with DCC to explore the benefits of trialling grief groups for older people experiencing grief from loss.	Accept There are existing programs run by agencies such as Australian Centre for Grief and Bereavement and Carers Victoria. Staff will seek to collaborate with Compassionate Friends or similar with a view to promoting their programs to the Darebin community. Council's new navigation support and social inclusion service would provide appropriate referral pathways for people in need of grief support.	See 2 above
