DAREBIN OVER 65				

AFTER YOU RECEIVE THE FLU VACCINE

- The flu vaccine does not contain any live virus – you cannot get the flu from receiving the vaccine.
- The vaccine is generally well tolerated.
- Like all medicines, vaccines may have side effects. Some pain, redness and swelling at the injection site is common.
- Some people may experience mild fever, muscle aches and/or tiredness for 1-2 days after vaccination.

Are you covered for **measles?**

- Measles outbreaks with community transmission are occurring in Victoria
- People born before 1992 may not be fully immunised.
- Free boosters are available today – ask our staff for more info or scan below:

PRIVACY STATEMENT

The personal information collected today will be used by City of Darebin and the Victorian Government for the purpose of providing immunisations and recording immunisation history in accordance with their respective privacy policies. The information may be disclosed as required by law or to another Council, Immunisation Provider, GP or Maternal & Child Health Nurse.

The Australian Immunisation Register (part of Services Australia) will receive a record of all immunisations given by the provider as required by law.

The City of Darebin privacy policy can be viewed at www.darebin.vic.gov.au/privacy-statement

The Victorian Government privacy collection notice can be viewed at portal.cirv.vic.gov.au/communityprivacollection/

The Privacy Policy for the Australian Immunisation Register can be viewed at health.gov.au/using-our-websites/website-privacy-policy/privacy-policy-for-the-australian-immunisation-register

Paper copies of the above policies are available on request.
