DAREBIN STANDARD DETAILS

Shrub Planting Detail

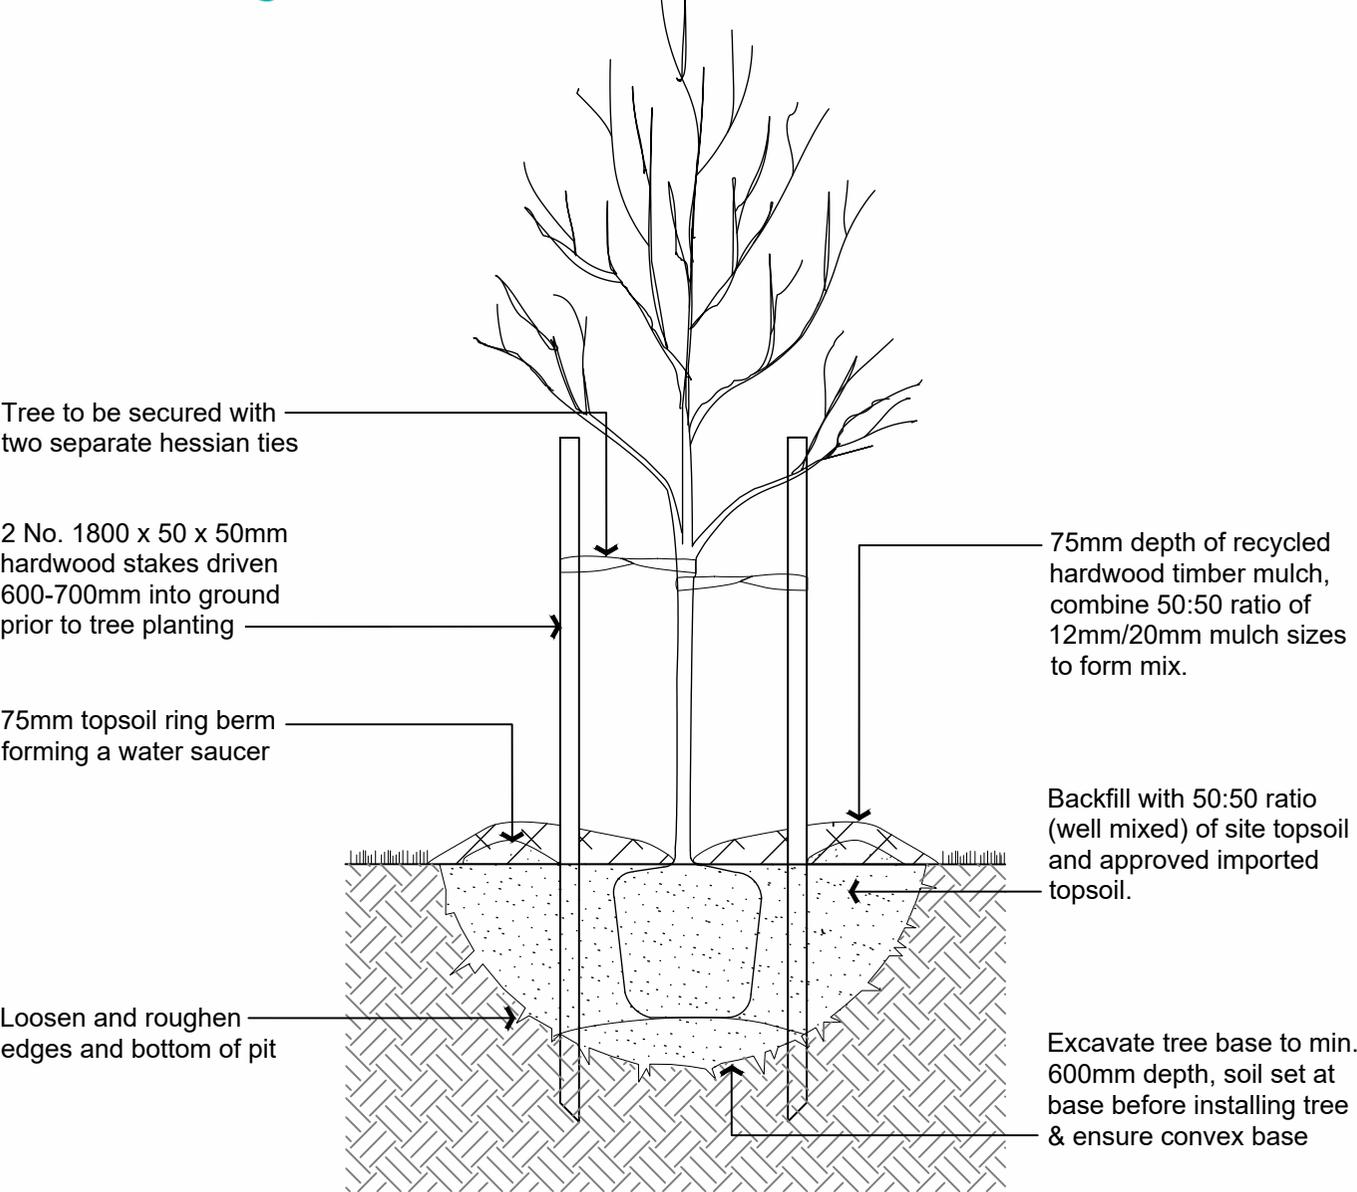

NOTES

Specifications: Approved plant stock to be planted into prepared on-site soil slightly below finished surface, ensure plant is set plumb. Rootball to be gently teased and protruding roots pruned.

Water immediately after planting with 6 litres of water to consolidate the backfill around roots.

Maintenance: Maintain 75mm depth of mulch to newly planted stock. Planting to include a watering regime and maintenance program to promote and stimulate healthy growth. Remove weeds in garden bed areas when they surface.

Tree Planting Detail

NOTES

All trees must comply with Australian Standard AS2303:2018 - *Tree Stock for Landscape Use*.

All trees and plants must be planted by an AQF Level 3 Qualified Arborist, Landscape Gardener or Horticulturist.

Water plants in their containers on day of planting and retain in their containers until time of planting.

Water immediately after planting with 10 litres of water to consolidate the backfill around roots. Ensure entire root ball is saturated.

Maintenance: Maintain 75mm depth of mulch to newly planted stock. Planting to include a watering regime and maintenance program to promote and stimulate healthy growth. Remove weeds in garden bed areas when they surface.
